

ADRIATIC

It is profiled from 0.45 to 0.60 mm thick galvanized steel (Z225-Z275), coated with paint, with different finishes (glossy, matt, GrandeMat). In addition, ADRIATIC metal tiles are available in variable lengths from 500 mm to 7000 mm and can also be produced in modular form.

Bilka ADRIATIC metal tile stands out with its prominent striations, making it the perfect choice for both traditional and modern roofs. The ADRIATIC metallic roof tiles are manufactured in a wide range of colors.

This is a product that distinguishes itself by its high profile, which provides a perfect ornamental framework for the house, as well as by its innovative joint system that allows overlapping of the tile modules on both sides, ensuring a significant simplification of the installation process and reduction of the related costs.

TECHNICAL CHARACTERISTICS	Material	Steel sheet, galvanized on both sides, protected with polyester
	Rated thickness	0,45 mm - 0,6 mm
	Total width	1215 mm
	Effective coverage width	1085 mm
	Module length	350 / 400 mm
	Total height	42 mm
	Weight per unit area	4 - 5 kg / sqm
	Minimum slope	8° if no diagonal joints are necessary/ 14 ° in the case of diagonal joints
	Glossy finish warranty	10-year warranty for color characteristics and corrosion
	Matte finish warranty	15-year warranty for color characteristics and corrosion
GrandeMat finish warranty	30-year warranty for color characteristics and corrosion	
Expected lifespan	60 years for the roof, resistance to temperature changes
