

## GOTIC

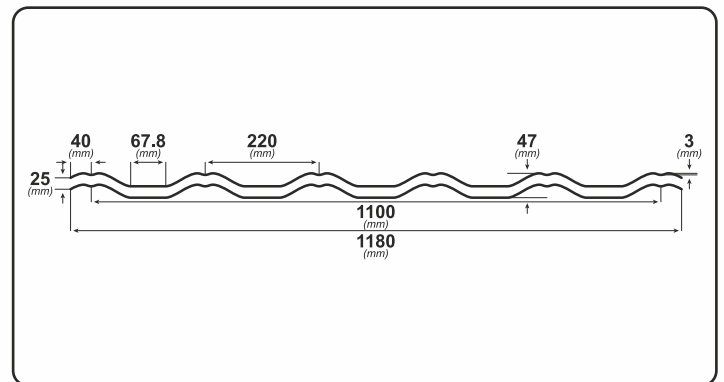

The GOTIC roof tiles are made of zinc-plated (Z225-Z275) shaped steel sheet with thicknesses between 0.45 and 0.60 mm, coated with a single layer of glossy or matte paint.

The GOTIC metallic roof tiles are manufactured in a wide range of colors.

If you wish to have a roof with modern forms and materials, which also blends in with the local environment, the GOTIC model is the right choice.

Țigla metalică GOTIC poate fi livrată cu lungimi cuprinse între 500 mm și 7000 mm.

This is a product that distinguishes itself by its high profile, which provides a perfect ornamental framework for the house, as well as by its innovative joint system that allows overlapping of the tile modules on both sides, ensuring a significant simplification of the installation process and reduction of the related costs.

TECHNICAL CHARACTERISTICS	Material	Steel sheet, galvanized on both sides, protected with polyester
	Rated thickness	0,45 mm - 0,6 mm
	Total width	1180 mm
	Effective coverage width	1100 mm
	Module length	350 / 400 mm
	Total height	47 mm
	Weight per unit area	4 - 5 kg / sqm
	Minimum slope	8° if no diagonal joints are necessary/ 14° in the case of diagonal joints
	Glossy finish warranty	10-year warranty for color characteristics and corrosion
	Matte finish warranty	15-year warranty for color characteristics and corrosion
GrandeMat finish warranty	30-year warranty for color characteristics and corrosion	
Expected lifespan	60 years for the roof, resistance to temperature changes
