

RETRO PANEL

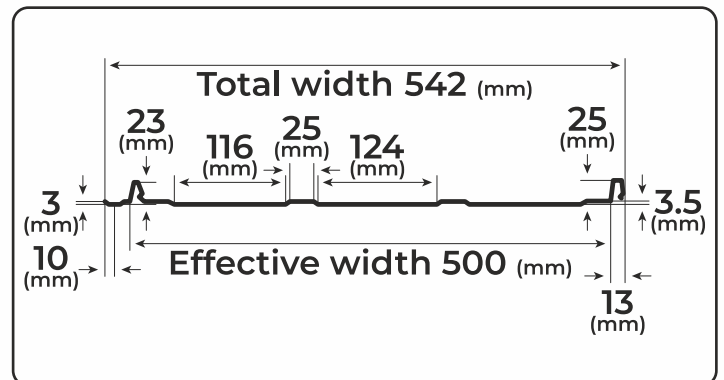

Folded sheet metal roof panels with joint clicking are a modern solution in the production of roofing and a quick and easy alternative to traditional roofs "with rebate".

This type of metal roofing can be chosen to cover rustic houses or ordinary roofed houses, requiring renovation, but also for new and modern buildings.

Retro Panel covering flexibility allows to cover large slope buildings, ensures coverage of atypical buildings such as heritage buildings, keeping the architectural line of the building. Also, Retro Panel can be used to cover office buildings and shopping centers without interfering negatively on the aesthetic aspect of the building.

ADVANTAGES:

- quick and easy installation
- undeniable aesthetic of the steep slope roof
- panels without visible fasteners (screws)
- longitudinal pre-profiling to increase roof stiffness
- possibility to execute the roof with a slope of min. 8°
- wide range of colors

TECHNICAL CHARACTERISTICS	Material	Steel sheet, galvanized on both sides, protected with polyester
	Nominal thickness	0,45 mm - 0,60 mm
	Total width	542 mm
	Effective coverage width	500 mm
	Rebate height	25 mm
	Weight per area	4 - 5 Kg / m ²
	Glossy finish warranty	10-year warranty for color characteristics and corrosion
	Matte finish warranty	15-year warranty for color characteristics and corrosion
	GrandeMat finish warranty	30-year warranty for color characteristics and corrosion
Expected lifespan	60 years for the roof, resistance to temperature changes
