

## BRITANIC / BRITANIC RETRO

The BRITANIC & BRITANIC RETRO roof tiles are made of zinc-plated (Z225-Z275) shaped steel sheets with thicknesses between 0.45 and 0.60 mm, coated with a single layer of glossy or matte paint. The BRITANIC metallic roof tiles can be delivered with lengths between 500 mm and 4500 mm. Varianta BRITANIC RETRO model can be delivered with lengths between 500 mm and 8000 mm.

Regarding the production options, the BRITANIC model can be made in both the Retro version (without embossing) and the Profiled version (with embossing), thus allowing its use for both cladding facades and roofing, depending on the selected version.

BRITANIC is a tile model that stands out for its modern, minimalist and simple design incorporating technology that spans decades.

The joining system allows the overlapping of the tile modules on both sides, thus considerably facilitating the installation process and reducing the related costs.

TECHNICAL CHARACTERISTICS	BRITANIC		BRITANIC RETRO		
	Material	Steel sheet, galvanized on both sides, protected with polyester			
	Nominal thickness	0,45 mm - 0,6 mm			
	Total width	1210 mm			
	Effective coverage width	1135 mm			
	Module length	350 / 400 mm		0 mm	
	Total height	40 mm		11,5 mm	
	Weight on the surface	4 - 5 kg / mp			
	Minimum slope	15°			
	Glossy finish warranty	10-year warranty for color characteristics and corrosion			
Matte finish warranty	15-year warranty for color characteristics and corrosion				
GrandeMat finish warranty	30-year warranty for color characteristics and corrosion				
Expected lifespan	60 years, resistance to temperature changes
